

# On Williams Street

Hello! We are Missy and Kimie from On Williams Street, sisters who share a passion for Quilting. We started designing quilts together in 2013 and have loved every minute of it. We have expanded to include instruction through YouTube videos and classes and have designed over 60 quilts together. Our style is big, bold, and modern. We love large elements that fill the quilt, negative space, and bright colors.

## Trunk Show

During our trunk show, we will be sharing some of our designs and the process behind creating them. We'll talk about where our inspiration comes from, how we choose colors, and pick quilting designs to enhance the final quilts. Each quilt is unique and has its own story of how it came to be. Full of inspiration and of course, lots of quilts, our trunk show is a great window into who we are as quilters.

## Stacked Quilt Class

Come and sew one of our favorite designs! Stacked is a great pattern to learn and practice curves. This quilt has curves sized from small to large, and we will share multiple techniques to achieve precise curves and smooth piecing. We will work with 4 different tones of a color, which creates depth and interest in the final quilt. During this 6 hour class, we will cut out the fabric, construct all the curved pieces, and put together the entire quilt top.
